- DEVELOP SCIENTIFIC REASONING
- BUILD COMPETITIVE TEMPERAMENT
- TO PREPARE FOR BOARD EXAMS
- 24X7 – INTEGRATED WITH DIGITAL PLATFORM

Grade 10 Basic Kit

Grade 10 Standard Kit

Prepared by Expert Teachers and Educationists, this workbook contains

- Questions of all types that is aligned with NCERT and NEP 2020.
- All types of questions—easy to read and answer even the most difficult concept-based ones.
- The questions are crafted in a way to remove the commonly made mistakes and misconceptions from the students learning practices of all subjects which the students in general find difficult, in an interesting manner.
- Basic mathematic plays a crucial role in the understanding of physics in higher grades, the students are made clear with the relevant mathematical concepts right at the beginning wherever needed. Also, other subjects support needed is brought to light with the help of suitable questions (cross curricular approach)
- The practice of all important diagrams, formulae and terms are ensured in each chapter.
- Facility for students to face objective as well as descriptive types of questions.
- Students & Teachers can navigate to Platform seamlessly 24x7

The Workbooks doesn't present questions in dull and drab manner which would otherwise definitely discourage students in their hectic schedule. It becomes a one stop solution for both teachers and students as it focuses on objective, subjective and digital learning.
